

“Renewable Energy”

Genesis 1:24-30; 2:7-9 1 Corinthians 15:1-4; 15:35-49

Renewable Energy is a source of energy that can never be exhausted. The topic of renewable energy is at the center of many important discussions in our society today. It is one that is being shared in schools, on television, and where people work. Although many renewable energy concepts are not new ideas, the conversation and the choice to put these thoughts into use has increased over the past few years; due to business, political, and ideological changes in our physical world regarding the use of fossil fuels (coal, oil and natural gas) and economic security.

To learn more about how Renewable Energy works in our physical world, and to find games, tips and facts just for kids who want to save energy visit: "<http://www.eere.energy.gov/kids/renergy.html>"

So, why should we be concerned about different uses of energy? Why should we take the time to learn about creating a clean environment? What is our role in caring for God’s creation and God’s people? Our answers to these questions reveal how we feel about ourselves as human beings; and also how we learn about ourselves as spiritual beings, created in God’s own image.

Today, let us take a moment to look at a few bible verses that will give us knowledge and understanding in the areas of:

God’s Creation of Life (Genesis 1:24-30; 2:7-9)

Jesus Christ Being Raised to Life (I Corinthians 15:1-4)

The Gift of Eternal Life (I Corinthians 15:35-49)

Renewable Energy in the form of Wind Power, Water Power and Sun Power!

But thanks be to God, who gives us the victory through our Lord Jesus Christ. “Therefore, my beloved, be steadfast, immovable, always excelling in the work of the Lord, because you know that in the Lord your labor is not in vain.” –1 Corinthians 15:57-58 (NRSV)
